TECHNICAL SKILLS

Languages: C++, JavaScript, TypeScript, HTML/CSS

Frameworks/Libraries: React.js, Next.js, Node.js, Express.js, Redux, Material-UI, Tailwind CSS

Databases: MongoDB, PostgreSQL, Firebase, Cloudinary

Developer Tools: Git, Prisma, Visual Studio Code, Postman, GitHub

EXPERIENCE

Full Stack Developer

January 2025 – Present

Star Marketing

Remote

- Delivered **9+** full-stack web apps using the **MERN stack** with scalable backend and clean UI architecture.
- Developed multiple **admin dashboards**, each handling **1K+ data records** with real-time validation, and optimized **CRUD** performance.
- Achieved **100% SEO** Lighthouse scores and **100% client satisfaction** across all live deployments.
- Spearheaded project delivery using **CI/CD** (GitHub Actions) and image optimization, enhancing efficiency.
- Drove **40–50% revenue growth** in development services through agile pipelines and client-driven enhancements.

Full Stack Developer Intern

January 2024 – July 2024

Future Finders

Remote

- Built a full-stack **MERN app** with secure **JWT auth**, cookie sessions, and protected backend routes.
- Integrated **TanStack Query** for API handling, enabling **30–40% faster data flow** with smart caching.
- Designed responsive, performant UIs using **React.js** and **SCSS** with seamless frontend–backend integration.

Software Development Engineer Intern

September 2023 – October 2023

Codefeast

Remote

- Integrated the **Instamojo payment system** on the backend, ensuring reliable transaction flow and seamless communication between the frontend and payment gateway.
- Built a responsive **admin dashboard** for course management using **React.js** and **modular architecture**.
- Engineered **20+ reusable components** and integrated APIs to streamline updates and improve maintainability.

PROJECTS

International Academy of Design [Project Link](#)

- Architected a full-stack **MERN** platform managing **1K+ student records**, with **90% of content** editable through a secure **React admin dashboard**.
- Optimized media workflows using **Multer** and **Sharp** for in-memory **WebP compression (70%+ reduction)**, **cutting load times by 60%** and boosting UX.
- Implemented server-side PDF generation (**sub-500ms renders**) using **canvas** with zero backend storage.
- Enhanced UX with **drag-and-drop interface** and **integrated image cropping** functionality.

Star Marketing [Project Link](#) [Invoice Project Link](#)

- Delivered a fully responsive web application from scratch, achieving a **100% SEO Lighthouse score**.
- Architected a robust invoice system with a custom **MongoDB schema**, enabling one-click PDF generation, on-demand email delivery, and seamless invoice management.
- Created an admin dashboard using **Tailwind CSS**, enabling **non-technical users** to manage **40%+ of site content**, reducing developer dependency by **30%**.

Streamer [Project Link](#)

- Engineered and implemented a **MERN full-stack** streaming platform managing **1K+ entries** with **RBAC**.
- Developed **Stripe subscription billing** and **real-time chart** visualizations.
- Used **skeleton loaders** to make pages feel **30% faster**, improving user experience.

EDUCATION

Bahra University

Solan, H.P, India

BCA (Bachelor of Computer Applications) **CGPA: 8.27/10**

June 2021 – June 2024

Course Work: Data Structures and Algorithms, Object Oriented Programming, Computer Networks, Operating Systems, DBMS
